Art Unit: 3617

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Becker et al (cited by Applicant). Becker et al disclose a cargo pressure tank 1 of a ship for transport of petroleum products with a pipe 11 with the pipe opening located immediately above the bottom section of the cargo tank with the pipe being the only connection between the outside and the inside of the tank. Also disclosed by Becker et al is a guide 10 which limits the radial movement of the pipe.

3. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wilkins shows a pipe. Gallagher et al show a pipe.
